This ordinance revises and clarifies ch. 245 relating to the permissibility of various encroachments, projections and special privileges into the public right-of-way. These changes include:

1. Codifying that, regardless of the special privilege granted, a minimum clear sidewalk path of 5 feet must be maintained at all times.
2. Updating those projections and encroachments allowable without a special privilege.
3. Merging provisions on residential fences and retaining walls into a broader category encompassing all encroachments allowable for both one and 2-family residential properties.
4. Revising regulations pertaining to movable awnings.
5. Combining and condensing rules on stationary fabric awnings, other fixed awnings and canopies.
6. Amending marquee regulations to include hoods.
7. Clarifying provisions relating to the removal of obstructions from the public way upon written notice of the commissioner of public works.

Whereas, One- and 2-family buildings are treated separately from other types of buildings by chs. 20 to 25, Wis. Adm. Code, and by ch. 240 of the Code of Ordinances; and

Whereas, Hundreds, if not thousands, of existing one- and 2-family residences have existing encroachments in the public right-of-way, such as steps, fences and retaining walls that have been present without enforcement and, in particular, without requirement of special privileges; and

Whereas, The administrative burden of enforcing the special privilege requirements for one- and 2-family residences would be excessive; and

Whereas, Residential buildings with 3 or more units are typically investment properties operated for profit which are better able to absorb the cost and satisfy the procedural requirements involved in obtaining and maintaining a special privilege; and

Whereas, It is therefore necessary to amend the Code of Ordinances to allow encroachments for one - and 2-family residences without requiring special privileges but with approval by the Commissioner of Public Works; now, therefore

The Mayor and Common Council of the City of Milwaukee do ordain as follows:

Part 1. Section 115-32-2 of the code is repealed and recreated to read:

115-32. Obstruction on Public Ways.

2. a. The location of any permitted obstruction shall not be construed or deemed to be a vested interest. A permittee shall remove or modify an obstruction at his or her own expense and restore the public way to the satisfaction of the commissioner whenever the city determines that the public

convenience would be enhanced by such removal or modification. Except as otherwise provided, the owner shall remove the obstruction from the public way within 30 days, or any special privilege within 10 days, of the receipt of written notice from the commissioner. If the owner fails to carry out the required work, the commissioner may cause such removal and certify the costs thereof in the proper manner to have them levied as special charges against the property and the proper city officials shall enter such charges on the tax rolls.

b. The owner of any non-permitted obstruction shall remove, at his or her own expense, the obstruction within 5 days of receipt of written notice from the commissioner. The owner shall restore the public way to the satisfaction of the commissioner. If the owner fails to carry out the required work, the commissioner may cause such removal and certify the costs thereof in the proper manner to have them levied as special charges on the tax rolls.

Part 2. Section 115-40 of the code is repealed.
