A substitute resolution relating to health insurance rates for management employees under 65 years of age retiring after December 31, 2001.

This resolution specifies that management employees under 65 years of age retiring after December 31, 2001, who opt for the City's Basic Health Plan, shall pay \$60 per month for the single coverage and \$120 for family coverage. All Fire Department management employees, excepting the Fire Chief and the Assistant Fire Chief, shall be treated in the same manner for the Basic Health Plan as are members of Local 215, Professional Fire Fighters Association. Whereas, The City of Milwaukee currently provides that police management employes who select retirement after 25 years of service without regard to age can select any health insurance plan the City offers at no cost or reduced costs dependent upon their sick leave balance they retire with until they reach age 65; and

Whereas, The City of Milwaukee currently provides that fire management employes who select retirement after 22 years of service at age 49 can select any health insurance plan the City offers at no cost or reduced cost dependent upon their sick leave balance until they reach age 65; and

Whereas, The City currently provides a rate structure for all active employes, including all active management employes, of paying 100% of the low cost health maintenance organization (HMO), and allows active management employes to pay the difference for a more costly HMO; and

Whereas, The City currently, in 2001, charges active management employes \$60 for single coverage in the basic plan or \$120 for family coverage in the basic plan; and,

Whereas, Few if any other employers provide early retirees with full health insurance coverage until age 65 at no cost; now, therefore, be it
