Substitute resolution granting an amending special privilege to Milwaukee Center for Independence, formerly known as Jewish Vocational Service of Milwaukee, Inc., to keep and use several existing platforms with ramp, brick wall and excess door-swing encroachments and now add permission for presently existing and used movable planters, benches, door-opener post, backup driveway and fence all located in the public rights-of-way of North Milwaukee Street, East Ogden Avenue and North Broadway abutting 1333-39 North Milwaukee Street, located in the 4th Aldermanic District in the City of Milwaukee.

This resolution grants an amended special privilege to Milwaukee Center for Independence, formerly known as Jewish Vocational Service of Milwaukee, Inc., to keep and use several existing platforms with ramp, brick wall and excess door-swing encroachments and now add permission for presently existing and used movable planters, benches, door-opener post, backup driveway and fence all located in the public rights-of-way of North Milwaukee Street, East Ogden Service and North Broadway abutting 1333-39 North Milwaukee Street. Whereas, Jewish Vocational Service of Milwaukee, Inc., (JVS), now known as Milwaukee Center for

Independence (MCI), purchased a property at 1333-39 North Milwaukee Street in 1974; and

Whereas, JVS indicated then that they provide both mental and physical rehabilitative services to its clients and many of the people who use the building are handicapped; and

Whereas, The building was not easily accessible to these people, if they are in wheelchairs or are using ambulatory devices; and

Whereas, JVS subsequently successfully petitioned the Common Council for a special privilege to permit construction in the public rights-of-way, which would increase the accessibility under C.C. 74-51, adopted on June 11, 1974; and

Whereas, There is a service area south of the building along North Broadway, where supplies are brought in and trash and other items are shipped out; and

Whereas, MCI sold some of that area to an abutting property owner for construction of a building that became the new location of the local office of the U.S. Immigration and Naturalization Service; and

Whereas, MCI indicates that this now requires that vehicles use a recessed dock differently and that while conducting some of the loading and/or unloading operations, a portion of the vehicle extends into the public right-of-way (backup driveway) and in addition they discovered that an existing fence providing security for this area is located in the public right-of-way; and

Whereas, They have now applied for formal permission for the backup driveway operation and fence encroachments to occur; and

Whereas, Our field investigation disclosed that several movable planters of wood or masonry, benches and a door-opener post are located between the main sidewalk path and the building and they wish for them to continue to do so; and

Whereas, All of said items may only legally occupy the public rights-of-way by the granting of a special privilege resolution by the Common Council; now, therefore, be it

Resolved, That C.C. 74-51 is hereby rescinded; and, be it
