SUBSTITUTE 3

ALD. STAMPER, PEREZ, HAMILTON, LEWIS, RAINEY, COGGS, and BAUMAN

Substitute resolution relating to services for residents in areas where high concentrations of households with lead-poisoned children have been reported.

This resolution directs the Department of Administration to contract with the Social Development Commission and the Sixteenth Street Community Health Center to provide the following services:

1. Contact and make in-person visits to each residential unit in portions of the 12th and 15th Aldermanic Districts identified by the Milwaukee Health Department as having the greatest concentration of lead-poisoned children to:
 - a. Inform residents they are living in housing which may contain lead hazards which could pose a risk of blood-lead poisoning, especially for children under 6 years of age, nursing mothers and pregnant women.
 - b. Inform residents of the health risks of blood-lead poisoning, the sources of lead contamination and the means of limiting or eliminating exposure to lead hazards.
 - c. Educate residents on what resources are available to test for blood-lead poisoning,

identify lead hazards in the home and limit or eliminate exposure to lead hazards, and assist residents in accessing these resources.

- d. Obtain signed forms indicating the parent or other person responsible for the welfare of children residing in the household was informed and understands the health risks of lead poisoning and exposure to lead hazards.
2. Offer water filters capable of eliminating lead to households with children under 6 years of age, nursing mothers or pregnant women, and provide water filters and replacement filters if requested, and instruct household members on how to properly install water filters provided, and how and when filters should be changed.
 3. If trained and directed by the Milwaukee Health Department, offer and perform High Efficiency Particulate Air (HEPA) vacuuming, wet washing and other interim control measures for residents wishing to avail themselves of this offer. Residents must be informed in writing no assessment of lead hazards is conducted as part of this specialized cleaning, and specialized cleaning cannot permanently eliminate any lead hazard.
 4. Offer and make lead hazard inspection referrals to the City for residents requesting domicile inspections.

Services provided under these contracts shall not exceed \$150,000 per contract and shall be funded through the 2018 Common Council Contingent Fund. Further Common Council approval is required.

Whereas, The Milwaukee Health Department has identified portions of the 12th and 15th Aldermanic Districts as having the greatest concentrations of lead-poisoned children in the city; and

Whereas, Informing residents in these areas that they are living in housing that may pose a risk of lead-poisoning, especially for children under 6, nursing mothers and pregnant women, and educating residents on the sources and health risks of lead-poisoning and resources for blood-lead level testing, may improve the health of household members; and

Whereas, Offering water filters capable of eliminating lead to households with children under 6, nursing mothers and pregnant women, and providing instructions on how to properly use these filters, may further improve the health of household members in these areas; and

Whereas, The Social Development Commission and the Sixteenth Street Community Health Center have successfully partnered with the Milwaukee Health Department in recent years to distribute drinking water filters and lead safety educational material; now, therefore, be it

Resolved, By the Common Council of the City of Milwaukee, that the Department of Administration is directed to contract with the Social Development Commission and the Sixteenth Street Community Health Center to provide the following services:

1. Contact and make in-person visits to each residential unit in portions of the 12th and 15th Aldermanic Districts identified by the Milwaukee Health Department as having the greatest concentration of lead-poisoned children to:
 - a. Inform residents they are living in housing which may contain lead hazards which could pose a risk of blood-lead poisoning, especially for children under 6 years of age,

- nursing mothers and pregnant women.
- b. Inform residents of the health risks of blood-lead poisoning, the sources of lead contamination and the means of limiting or eliminating exposure to lead hazards.
 - c. Educate residents on what resources are available to test for blood-lead poisoning, identify lead hazards in the home and limit or eliminate exposure to lead hazards, and assist residents in accessing these resources.
 - d. Obtain signed forms indicating the parent or other person responsible for the welfare of children residing in the household was informed and understands the health risks of lead poisoning and exposure to lead hazards.
2. Offer water filters capable of eliminating lead to households with children under 6 years of age, nursing mothers or pregnant women, and provide water filters and replacement filters if requested, and instruct household members on how to properly install water filters provided, and how and when filters should be changed.
 3. If trained and directed by the Milwaukee Health Department, offer and perform High Efficiency Particulate Air (HEPA) vacuuming, wet washing and other interim control measures for residents wishing to avail themselves of this offer. Residents must be informed in writing no assessment of lead hazards is conducted as part of this specialized cleaning, and specialized cleaning cannot permanently eliminate any lead hazard.
 4. Offer and make lead hazard inspection referrals to the City for residents requesting domicile inspections.

; and, be it

Further Resolved, Services provided under these contracts shall not exceed \$150,000 per contract and shall be funded through the 2018 Common Council Contingent Fund. Further Common Council approval is required.

Further Resolved, That the Health Department shall provide a report on the progress of this grant to the Common Council within 6 months of receipts of the grant funds.
