This resolution authorizes the Department of Public Works, Infrastructure Services Division, to accept and fund a National Fish and Wildlife Foundation grant for the rehabilitation of a bioretention facility, and test the performance of several pilot soil amendments located near North 26th Street (extended) and West Canal Street in the City of Milwaukee in the amount of \$350,000.

Whereas, Said bioretention facility receives storm water runoff from approximate 26 acres of West Canal Street and adjacent parcels; and

Whereas, Green infrastructure, such as bioretention facilities, reduces the volume of storm water in the sewer system and the amount of pollutants discharged to surface waters; and

Whereas, Said bioretention facility is no longer functioning as originally designed and is need of rehabilitation; and

Further Resolved, That upon approval of this Agreement, the City Comptroller is authorized to create within the Capital Grant and Aid Projects Fund the appropriate Project/Grant Chartfield Value for these projects, and transfer to these accounts the amount required under the agreement and City accounting policy, but not to exceed a ten percent increase of the total amounts reserved for the grantor's share and local share or \$5,000, whichever is greater, as follows:
