officer or employee in any period and to reduce and simplify payroll preparation and the auditing thereof, salary advancement within any pay range shall follow the completion of 26 biweekly pay periods and not the precise anniversary date. For the purpose of determining the proper time for the initiation of salary advancements, appointments during a pay period shall be considered as having been made at the beginning of such period.

Department heads are directed insofar as possible to make appointments effective at the beginning of a biweekly pay period. Absence or absences from work without pay for any cause for 10 or more work days in the aggregate shall defer salary advancement for one additional pay period for each such 10 days' absence.

Appointment to a New or Reclassified Position: Appointment of a person in the service of the City to a new position or a reclassified position who has received the same rate of pay for at least one year shall be at the salary increment next above the rate currently received but not in excess of the maximum of the scale, except as may be provided in Part II, Sec. 12 of this ordinance.

Increases in Salary Scales or Ranges: Where the salary scale for a position is increased in this ordinance over the scale received under a previous ordinance, the incumbent shall receive the increment in the salary scale next above the increment received at the time the employee has completed one year of service at said rate regardless of years of service.

Hourly Employees - Job Change: Whenever an employee in a position compensated on an hourly basis is appointed, transferred, or reinstated to a position the salary of which is determined under this ordinance, the amount of earnings in the twelve month period immediately preceding such appointment, transfer, or reinstatement shall be calculated. The rate of pay in the new position shall be the increment in the scale next above the amount of the employee's earnings for said period, but not in excess of the maximum increment in said scale.

Hourly Employees - Rates of Pay - Salary Advancement: Payrolls for positions with an official hourly rate listed in Part I, Sec. 23 shall be based upon the number of hours or days employees are actually employed. Salary advancement above the rate at initial appointment shall be made at the next higher rate upon the completion of each year of service at that particular rate until the maximum rate is received.

Promotion or Reallocation Pay Increase: Appointment or promotion of an officer or employee to a higher level classification or reallocation to a higher level pay range shall be at the pay rate in the new pay range next above the pay rate the employee was receiving at the time of such appointment or promotion except as provided in Part II, Sec. 12 of this ordinance. In those instances where the next higher pay rate (step) is less than \$10.00 biweekly (except for those bargaining units that still have a minimum of \$5.00 biweekly) higher than the employee was receiving, the next higher pay rate (step) shall be paid. In those instances where the next higher pay rate (step) is at least \$10.00 biweekly (except for those bargaining units that still have a minimum of \$5.00 biweekly) more, that pay rate (step) shall be paid.

Salary Anniversary Date: All employees, who are not at the maximum of their pay range will retain their salary anniversary date when they are promoted or reallocated to a higher level pay range. Employees promoted into job titles contained in Part I, Sec. 2 of the Salary Ordinance and covered by the Management Pay Plan shall retain their previous salary anniversary date. All nonmanagement employees who are at the maximum of their pay range will receive a new salary anniversary date when promoted or reallocated to a higher level pay range.

Except for those employees being promoted into titles contained in Part I, Sec. 2., an officer or employee compensated at the maximum rate of the employee's pay range at the time of such appointment, promotion, or reallocation shall receive a new salary anniversary date which shall be based upon the effective date of such appointment, promotion, or reallocation.

Combining Pay Rates into the City's System: Whenever a pay rate in prior salary ranges is not included in salary ranges established in this ordinance, the salary of the officer or employee compensated thereunder shall be advanced to the next higher pay rate in the range established under this ordinance or under previous ordinances as set forth in Part II, Sec. 9.

Minimum Rate of Pay: The salary of an officer or employee receiving less than the minimum of the salary scale established in this ordinance shall be advanced to the minimum step of the scale.

Truck Drivers, Driver/Workers and Special Equipment Operators: Effective the first day of the next pay period following passage and publication of this amendment, persons employed as Truck Driver (Pay Range 248), Driver/Worker (Pay Range 247) and Special Equipment Operator (Pay Range 258) shall be advanced to the second step of each class on the completion of one year's service in any one or a combination of the foregoing classes, and shall be advanced to the third step of each such class on the completion of two years' service in any one or combination of the foregoing classes, and so on until the maximum rate is reached. They shall be compensated at the indicated rates only when actually employed in the class where service credit has been earned according to the above formula.

Sec. 3. Recruitment Above the Minimum: Appointment of a person to a position may be at a rate above the minimum rate within the established pay range provided it is determined by the Common Council that such rate is necessary in order to recruit qualified persons. Such action shall initiate with the recruitment study made by the Department of Employee Relations or other competent authority. A finding of necessity must be made prior to the holding of an examination for the position or the granting of provisional authority to fill the position. With regard to positions covered by Part I, Sec. 2 of this Salary Ordinance, salary rates shall be in accordance with special provisions included in that section and in Part II, Sec. 12 or Sec. 14 of this ordinance.

Public Health Nurses and Public Health Nurse Supervisor: Any person who has held, by regular appointment, a position in the City service classified as Public Health Nurse, or Public Health Nurse Supervisor, and has resigned in good standing from the service, may upon recommendation of the appointing authority, be re-employed in such position or in another position of the same classification at a salary level above the minimum rate within the established pay range but no higher than the salary level above the current recruitment step which the individual would be eligible for on the basis of the time previously worked in positions in the same pay range, when, by determination of the Department of Employee Relations, such position is found to lie within a recruitment problem area because of the shortage of qualified personnel and when, in the judgement of the Department of Employee Relations, supported by a review of the employment history of the individual, such re-employment above the minimum rate would best serve the interests of the City.

Candidates with Masters' Degrees: Except as otherwise provided in this ordinance, any qualified candidate for appointment to a City position allocated to Salary Grades 001 through 003 and Pay Ranges 500 through 535, which requires for appointment possession of a bachelor's degree from a school approved by the City Service Commission, who possesses a master's degree, may upon review of the appropriateness of graduate training by the City Service Commission, be initially employed at the third rate of the pay range (or for positions in Salary Grade 001 through 003, the fourth step, upon approval of the City Service Commission. Such employees shall retain their salary step anniversary dates.

Sec. 4. Voluntary Demotions and Demotions Resulting from Bumping for Year Round Positions: Whenever an employee (except those in bargaining units having different seniority and layoff contract provisions from the District Council 48 bargaining unit) is bumped down, or elects to take a voluntary demotion to another position in anticipation of being bumped, from positions which have traditionally provided year-round employment, the employee shall be paid at the normal maximum rate of the position the employee bumps to if this rate is not higher than the rate the employee was paid prior to being bumped.

If the maximum rate of the position the employee bumps to is higher than the rate the employee had been earning,

the employee shall be paid the highest rate in the new range which does not exceed the rate the employee had been earning.

An employee who elects to take a position in a rate range which has special attainment steps, who meets the qualifications prescribed, or who would have qualified for them on the date the appropriate contract became effective, shall be paid the appropriate step.

In no event shall the employee, by application of this provision, be paid in excess of the rate the employee was earning prior to his reduction.

When an employee who has been bumped to another position as specified in this paragraph is appointed to a different position, the employee shall be paid at least the highest step in the new range which does not exceed the step from which the employee had initially been bumped.

Whenever an employee in a year-round position, other than those affected by the layoff procedure specified in the above paragraph, compensated in accordance with this ordinance is appointed, transferred, demoted, or reinstated to a position at a lower rate of pay, the employee shall receive the increment in the scale which represents the number of years the employee has served in the position to which the employee has been appointed and in positions which are compensated at the same or a higher rate of pay.

Seasonal Employees - Job Change - Pay Rate: Whenever an employee in a position of a seasonal or part-time nature but compensated on a biweekly basis is appointed, transferred, demoted, or reinstated to a position compensated at the same or at a lower rate of pay, the employee shall be compensated in accordance with the employee's years of service for the City in positions which are compensated at the same or a higher rate of pay.

Recall to a Different, Higher-Level Position: Notwithstanding any of the above, when an employee, except those in bargaining units having different seniority and layoff contract provisions from the District Council 48 bargaining unit, who has been reduced in rank from a position the employee previously held, is recalled to a job classification in a pay level above the employee's current position but lower than the pay level of the original position, the employee will be paid at a rate nearest the rate paid in the original position.

In no event shall the employee, by application of this clause, be paid in excess of the rate of pay the employee was earning prior to the employee's reduction. The above paragraph will not apply to laborers and other related positions now covered by the Time-in-Grade rules for positions affected by seasonal fluctuations.

Employees Covered by Bargaining Units Other than District Council 48: An employee in a bargaining unit having different seniority and layoff contract provisions from the District Council 48 bargaining unit shall be covered by the provisions of the employee's union's specific contract.

Budgeted Amount for a Position Versus Salary Ordinance: In case of a variation between the amount of money set up in the budget for a particular position and the amount an incumbent of a position would normally receive under the terms of this ordinance, the employee shall be paid according to the terms of this ordinance.

An absence shall be considered to be authorized only if the employee in question has duly reported his absence and has been duly excused. A holiday which falls on a Friday or on a Monday shall be considered to be immediately before, or immediately after, the adjacent Monday or Friday for purposes of interpreting this paragraph. An employee who is on sick leave with pay or on vacation with pay shall be regarded as being regularly at work for purposes of interpreting this paragraph. Nothing herein shall be construed to deny holiday pay to any employee who has served the employee's regular time on the working day immediately before, and on the working day immediately following said holiday.

It is clearly intended that members of the following types of boards and commissions shall not be eligible for any reimbursement allowances authorized by this section of the salary ordinance:

1. Boards and commissions whose members are compensated under pay ranges 030 through 047 of Part 1, Sec. 1 of the salary ordinance.

At the end of the year such board chair shall submit to the Comptroller's office a list of members eligible for such compensation payments together with a record of the number of meetings each member has attended during that calendar year. Sec. 9. Continuation of Salary Rates and Ranges: Where duties and responsibilities of positions have remained unchanged, the salary rates and ranges established by previous ordinances are hereby declared to continue in effect to govern the pay rates and ranges of officers and employees in the positions they hold at the time of the passage of this ordinance without regard to the salary rate or to the title of the position to which they were allocated and for which the pay rate and range would constitute a reduction in the pay of the position they presently hold as an effect of the passage of this ordinance.

Return from Authorized Layoff or Leave: It is hereby declared to be the intention of the Common Council not to reduce the pay rate or range of any officer or employee or of any officer or employee returning to City service from a duly authorized layoff or leave of absence including military leaves, hospitalization, rehabilitation, or further education or vocational training.

(See s. 350-237 of the Milwaukee Code of Ordinances titled "Exclusions from Benefits.")

Sec. 11. In addition, an employee occupying the position of Police Liaison Officer shall receive \$75.00 biweekly as compensation in lieu of overtime pay and all other allowances or pay received by a member of the Milwaukee Police Department; provided that such \$75.00 biweekly amount shall not have any sum deducted for pension benefits nor shall it be included in the determination of pension benefits or other fringe benefits.

Sec. 12. Management Pay Plan

a. Scope: This section of the Salary Ordinance pertains to management job classifications listed under salary grades 001 through 020 inclusive in Part I of this Ordinance, except as otherwise stated in this Ordinance.

b. Authority: The Department of Employee Relations shall have responsibility for administering the provisions of

this section subject to the review of the Common Council's Committee on Finance and Personnel.

c. Equal Opportunity: Principles of merit and equity shall prevail in all aspects of the administration of this Ordinance. As specified in ch. 109 of the Milwaukee Code of Ordinances, it is unlawful to discriminate because of age, race, color, religion, sex, marital status, sexual preference, handicap, national origin, creed, political affiliation or ancestry in regard to job posting, hiring, training, tenure, promotion, compensation, or enforcement of any rule or employment policy and other terms and conditions of employment.

d. Recruitment: Except as provided elsewhere, appointment shall be at the minimum step of the grade to which the classification is allocated. In the event it becomes necessary to recruit at a rate above the minimum, the Department of Employee Relations, with the concurrence of the Chair or Vice Chair of the Committee on Finance and Personnel, may authorize appointment up to the seventh step of the salary grade. A listing of appointments made pursuant to this provision shall be communicated to the Committee on Finance and Personnel.

e. Salary Advancement Based Upon Job Performance:

(1) Intent: This Ordinance is intended to provide the basic policies and procedures for administering the Management Pay Plan. It is also intended that all officers and employees shall fully cooperate with the Department of Employee Relations in this administration, recognizing that commitments of time and effort will be required to make the plan successful. The Department of Employee Relations is authorized to develop procedures and guidelines necessary to carry out the intent of this section.

(2) Annual salary increments: Except as provided below, management employees, who demonstrate fully satisfactory performance, working in management classifications, shall be eligible for salary increments of one step per year above the initial appointment step up to the maximum step based upon recommendation of the appointing authority after appropriate review of job performance. Such step increases may be made on the manager's salary anniversary date.

Nothing in this section shall be construed as denying the right of a department head to make the effective date of a salary increment later than the employee's anniversary pay period. Deferred increments based on unsatisfactory job performance may change the employee's anniversary pay period.

(3) Documentation: Annual performance reviews shall be conducted in accordance with the guidelines established by the Employee Relations Department.

(4) Seasonal Managers: City employees who are appointed to management positions on a seasonal basis, and who revert to non-management classifications during the remainder of the year, shall be eligible for a full salary adjustment during the pay period in which they achieve a cumulative twenty six (26) pay periods of service in management. Such adjustments will be made under the same conditions as for others in the plan.

(5) The Department of Employee Relations shall establish anniversary dates for each management pay plan employee for 1995 based upon each manager's appointment date to his or her current management title and salary grade.

(6) Department Heads: Otherwise eligible heads of departments shall be entitled to receive a performance review and salary adjustment under the same conditions as established for general City managers. Evaluations of department heads shall be made by their appointment authority. For those department heads who serve under boards and commissions appointed by the Mayor, this recommended performance evaluation and salary adjustment shall be forwarded to the Mayor, who shall have final determination in assessing each department head's job performance during the preceding rating period, and approving the salary increment.

(7) Comptroller, City Attorney, Municipal Judges, City Treasurer and City Clerk: These individuals shall

receive an increment on their salary anniversary pay period. These adjustments shall begin in 1995 and occur in each succeeding year thereafter, provided that the individual is otherwise eligible. It is the intent of this provision that all Municipal Judges be paid at the same rate of pay. Except in the case of the City Clerk, individuals subsequently elected to these positions shall begin at the rate being paid to their predecessor. In the case of the City Clerk, if the Steering and Rules Committee does not approve the adjustment in the amount authorized, no adjustment shall be granted.

(8) Mayor, Aldermen, President of the Common Council are paid according to s. 350-100 of the Milwaukee Code of Ordinances, which is also reflected in Part I, Section 2 of the Salary Ordinance.

f. Promotion

(1) Promotion: A promotion may take place by reclassification to a higher salary grade, reallocation to a higher salary grade, or appointment to a different, higher level position

The promotional increase, for employees promoted within or into the Management Pay Plan, will be at the pay rate in the new salary grade which is at least 3.00 percent above the pay rate the manager was receiving at the time of such appointment or promotion. In those instances where the next pay rate (step) is less than three percent higher than the employee was receiving, the next higher pay rate (step) shall be paid.

(2) Salary anniversary date: For purposes of salary adjustment under this plan, all managers will be considered to have a salary anniversary date of the pay period in which they were initially appointed to their current management classification and salary grade. After January 1, 1995, all managers will retain their salary anniversary date when they are promoted or reallocated to a higher salary grade, except that adjustments are made for time off the payroll or deferred salary increments.

g. Demotions: Demotions of management employees are under the authority of and administered by the Department of Employee Relations. In instances where a management employee disagrees with the salary determination associated with a demotion, he or she may appeal to the Employee Relations Director.

(1) Demotions attributable to the Performance or Behavior of the Manager:

(a) Ineffective Job Performance: When a manager is demoted due to ineffective job performance and returns to a lower level position previously held, that manager will receive the rate of the closest step in that lower level position as was paid prior to promotion. This rate shall include any general across-the-board adjustments granted during the interim. If the current rate is above the maximum of the lower grade, the manager shall be paid at the maximum step. If the demoted manager has not had prior service in the grade into which the demotion is made, that manager shall be placed into the same relative step in the new grade as had been their location in the former grade.

(b) Misconduct: When a management employee is demoted to a lower level position as the result of misconduct, the employee will be paid at a rate equal to the same relative step in the new management salary grade as had been the location in the prior grade.

(2) Demotions attributable to Factors Outside the Control of the Manager:

(a) Reorganizations, Reclassification, and Policy Level Reassignments: When a management employee's position is reclassified or reallocated due to a reorganization or related action, the employee will continue to be paid the closest rate in the new grade as was received prior to the reorganization, provided the rate falls within the management salary grade for the new position. If the employee's rate is higher than the maximum of the new grade, the employee's rate shall be placed at the maximum.

(b) Demotions Resulting From Reductions in the Work Force: When a management employee is assigned a different lower-level position due to a reduction in work force (or the anticipation of such a reduction), the employee will be paid the closest rate in the new grade as was received prior to this action. If the employee's pay rate is higher than the maximum of the new salary grade, the employee will receive the maximum rate of the new grade.

(c) Demotions related to Career Changes: When a manager accepts a demotion to a position in a lower management pay plan salary grade previously held for the purpose of career enhancement, or any other reason not related to layoff or less than satisfactory job performance as covered in (a) and (b), respectively, that manager will receive the same step in the lower level grade as was paid prior to promotion. This rate shall include any general across-the-board adjustments granted during the interim, as well as any merit adjustments granted to the manager while serving in the higher level position. If that combination of adjustments would place the manager above the maximum of the grade, the manager shall be paid at the maximum. If the demoted manager has not had prior service in the grade into which the demotion is made, that manager shall be placed in the same relative step in the new grade as had been his or her location in the former grade.

(3) Managers, who are demoted for any of the reasons stated above, will retain their last salary anniversary date for pay progression purposes.

h. Flexible Schedule: Employees excluded from the provision of s. 350-5 of the Milwaukee Code of Ordinances (Exclusion from Overtime) in grades 4 and above may, upon department head approval, work on a flexible schedule, so that the daily work schedule may be adjusted from time to time as necessary and appropriate to fulfill assigned duties and responsibilities. Such adjustments may include starting and quitting times that are earlier or later than established in the normal work schedule of the department, and may include more or less than eight hours in any particular day and more or less than forty hours in any particular week.

i. Overtime: Where management positions are excluded from s. 350-5 of the Milwaukee Code of Ordinances (grades 4 and above) the rates of pay established recognize the fact that a certain amount of overtime is considered appropriate and normal for these supervisory and management positions.

j. Salary Adjustment Appeals: Managers may appeal denial of an increment to the City Service Commission. The Commission may hear such cases directly or appoint one or more persons to serve as hearing examiners whose recommendations would be made to said Commission for review and approval. The Department of Employee Relations shall establish policies and procedures for conducting such appeals.

k. Correction of Obvious Errors or Inequities: In the event that a transaction made pursuant to this Section results in an obvious misapplication of its intent, the Director of Employee Relations, with the approval of the Finance and Personnel Committee Chair, is authorized to make equity adjustments or corrections.

Sec. 13. Physicians: It shall be permissible for the Commissioner of Health to schedule physicians employed in any Health Department bureau, under whatever title employed, in order to maintain complete coverage of service at any health clinic. Such authority shall extend to the filling of full time or part-time positions for a greater time than provided in this ordinance, to the rearrangement of time of presently employed physicians and to compensate said physicians on a straight-time basis in their current rate of compensation, provided that the total time and compensation of physicians shall not be in excess of the total time provided in this ordinance and in the Positions Ordinance, nor of the total appropriation provided in the budget. No additional fringe benefits shall be provided for such additional service. This action is necessary in view of the shortage of physicians available for public service.

e. **Merit Increase Appeals:** The reasonableness of the amount of the merit increase granted may be grieved subject to the terms of the labor agreement between the City and the Association of Municipal City Attorneys.

Part III. If any section, subsection, sentence, clause, phrase or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect the validity of the remaining portions thereof. The Common Council of the City of Milwaukee hereby declares that it would have passed this ordinance and each section, subsection, clause, phrase, or portion thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases, or portions thereof be declared invalid or unconstitutional.

Part IV. Notwithstanding provisions of the above ordinance, including salary rates, employees in bargaining units which have not reached agreement with the City with regard to wages, hours, and conditions of employment for 2002 shall be paid in accordance with rates established in the 2001 Salary Ordinance, as applicable, pending such agreement with the City.
