This ordinance corrects errors and clarifies language in the new zoning code that became effective October 1, 2002. It also makes a number of minor substantive changes to the zoning code, including:

1. Parking spaces that are integrated into larger structures housing permitted or board of zoning appeals-approved uses shall be classified as accessory-use parking structures.
2. The message on an automatic changeable message sign may be changed as frequently as once every 60 seconds, rather than a maximum frequency of once every 12 hours.
3. Accessory-use parking structures are classified as a limited use in all downtown zoning districts, with the limited use standards being that:
  - a. The parking spaces shall be integrated into a larger structure that houses one or more principal uses of the premises that are permitted uses or have been approved by the board.
  - b. If the structure is in the C9C, C9E, C9F or C9G district, at least 50% of the street frontage shall be devoted to permitted uses or uses approved by the board.
4. The height of freestanding signs under a master sign program overlay zone shall not exceed 150% of the maximum height permitted in the base zoning district.

This ordinance also corrects various errors on the official City of Milwaukee zoning map by replacing that map with a new official City of Milwaukee zoning map.
