SUBSTITUTE 2

ALD. BAUMAN, ALD. DAVIS, & ALD. WADE

Substitute resolution relating to parking structure management contracts.

This resolution mandates all City-owned parking structures operated under management contract be staffed by at least one human operator whenever the structure is in operation. These human operators shall be covered by the City's Service Contract Wage Requirements ordinance making the minimum wage of \$10.10 per hour until March 1, 2015, when it will be pegged to the federal poverty index.

The resolution further directs the Parking Fund to extend its current parking structure management contract, which expires on November 30, 2014, if that contract can be reasonably modified without extra cost to staff each parking structure with at least one human operator whenever the structure is in operation. Failing such an extension, the Parking Fund is directed to initiate a new request-for-proposals process to let a new

parking structure management contract.

Whereas, Having a human operator on-site at City-owned parking structures whenever the parking structures are in operation will improve public safety, and add significantly to customer satisfaction by serving as a resource to solve problems arising from automated equipment malfunctions or other difficulties; and

Whereas, Having a human operator on-site at City-owned parking structures whenever the parking structures are in operation will signal the City's interest in job creation and provide jobs to individuals needing flexible hours and light duties; now, therefore, be it

Resolved, That the Parking Fund shall extend its current parking structure management contract, which expires on November 30, 2014, if that contract can be reasonably modified without extra cost to comply with s. 309-61-d of the Milwaukee Code of Ordinances which provides that each parking structure be staffed with at least one human operator whenever the structure is in operation; and, be it

Further Resolved, That the Parking Fund shall initiate a new request-for-proposals process to let a new parking structure management contract consistent with s. 309-61-d of the Milwaukee Code of Ordinances which provides that each parking structure be staffed with at least one human operator whenever the structure is in operation if its current parking structure management contract cannot be reasonably modified without extra cost.
