Substitute Resolution authorizing the Department of Administration - Environmental Collaboration Office to accept and expend a grant from the Milwaukee Metropolitan Sewerage District to create the Fondy Stormwater Park on a City-owned vacant lot at 2210 West Fond du Lac Avenue.

This resolution authorizes the Department of Administration - Environmental Collaboration Office to accept and expend a grant of \$64,375 from the Milwaukee Metropolitan Sewerage District to add stormwater management features to a City-owned vacant lot located next to the Fondy Food Center. This resolution is related to Common Council File Number 161015, which provides additional grant funds for the same project from the Fund for Lake Michigan, bringing total grant project funding to \$99,000.

Whereas, The Environmental Collaboration Office has partnered with the Department of Public Works and Department of City Development to work with the Fund for Lake Michigan to identify projects that meet City needs; and

Whereas, The Milwaukee Metropolitan Sewerage District (District) is responsible for collecting and treating wastewater from local sewerage systems; and

Whereas, During wet-weather events, stormwater enters local sewerage systems, increasing the volume of wastewater that the District must convey and treat; and

Whereas, During wet-weather events, stormwater directly enters surface waters, increasing pollution levels in those waterways and increasing the risk of flooding; and

Whereas, Green infrastructure, such as constructed wetlands, rain gardens, green and blue roofs, bioswales, and porous pavement, reduces the volume of stormwater in the sewerage system and the amount of pollutants discharged to surface waters; and

Whereas, The District's wastewater discharge permit requires the construction of new green infrastructure retention capacity; and

Whereas, The Environmental Collaboration Office and the District want to promote the installation of green infrastructure as described in the City of Milwaukee's Refresh Milwaukee sustainability plan; and

Whereas, The City of Milwaukee plans to install green infrastructure as part of a broader effort to convert a blighted City-owned vacant lot at 2210 W. Fond du Lac Avenue into a community asset; and

Whereas, The District supports the City's efforts to install green infrastructure; and

Whereas, The operation of this grant from the agreement execution date to 11/1/2018 would cost \$64,375, of which \$64,375 (100%) would be provided by the grantor and \$0 (0%) would be provided by the City; now, therefore, be it

Resolved, By the Common Council of the City of Milwaukee, that the Department of Administration - Environmental Collaboration Office is authorized to accept a \$64,375 grant from the Milwaukee Metropolitan Sewerage District to install stormwater management features and park amenities, on the vacant City-owned lot at 2210 West Fond du Lac Avenue and is authorized to accept and expend this grant without further approval unless the terms of the grant change as indicated in s. 304-84 of the code of ordinances, and, be it

Further Resolved, That the Department of Administration Environmental Collaboration Office and Department of Public Works are authorized to hire design, engineering, and construction services in conjunction with this grant project following all procedures and policies set forth for City purchases of services; and, be it

Further Resolved, That the City Comptroller is authorized to:

1. Commit funds within the Project/Grant Parent of the 2016 Special Revenue - Grant and Aid Projects Fund, the following amount for the project titled Fondy Stormwater Park-MMSD Grant:

Project/Grant	GR0001600000
Fund	0150
Org	9990
Program	0001
Budget Year	0000
Subclass	R999
Account	000600
Project	Grantor Share

Amount \$64,375

2. Create the necessary Grant and Aid Project/Grant and Project/Grant levels and budget against these Project/Grant values the amount required under the grant agreement.

; and, be it

Further Resolved, That these funds are budgeted to the Department of Administration - Environmental Collaboration Office and Department of Public Works which are authorized to:

1. Expend from the amount budgeted for specified purposes as indicated in the grant budget and incur costs consistent with the award date; and
2. Enter into subcontracts as detailed in the grant budget.
