ALD. COGGS

Resolution establishing a City of Milwaukee cloud computing policy for City employees and departments.

This resolution establishes a City cloud computing policy. Through this policy the City will establish a process whereby employees can use cloud services without jeopardizing data and computing resources.

Whereas, The City Information Management Committee is responsible for policy and management of the City's information resources; and

Whereas, Cloud computing offers a number of advantages including low costs, high performance and quick delivery of services; and

Whereas, Without adequate controls, cloud computing can potentially expose individuals and organizations to online threats such as data loss or theft and unauthorized access to networks; and

Whereas, The City remains committed to enabling employees to do their jobs as efficiently as possible through the use of technology; and

Whereas, The City Information Management Committee has prepared a City cloud computing policy, which was approved by the committee on December 13, 2013; and

Whereas, The scope of this policy includes all City employees and the use of all external cloud services; and

Whereas, Through this policy, the City will establish a process whereby employees can use cloud services while protecting the integrity and confidentiality of data and the security of the network; now, therefore, be it

Resolved, By the Common Council of the City of Milwaukee, that a City cloud computing policy, a copy of which is attached to this file, is adopted as City policy.
