THE CHAIR

Substitute resolution establishing the 2024 Equivalent Residential Unit and 2024 Equivalent Residential Unit Rate used in calculation of the Storm Water Management Charge.

This resolution establishes the 2024 Equivalent Residential Unit as 1,610 square feet and the 2024 Equivalent Residential Unit Rate as \$24.60 per quarter. Based on these values, the Storm Water Management Charge for 2024 is as follows:

Whereas, Section 309-54 provides that the Storm Water Management Charge for each dwelling on a residential developed property (building containing one to 4 dwelling units) shall be the ERU rate, while the Storm Water Management Charge for a nonresidential developed property or a vacant improved property shall be computed based on the total impervious area of the property divided by the ERU multiplied by the ERU rate; now, therefore, be it
